e. Users will be able to edit time entries they have made within 7 days of the initial entry, for entries that need to be changed after 7 days the instructor would have to edit the entry from their account

Privileged User (Instructors)

    a.   Instructors will be able to login to the system with elevated privileges. This will allow them to be able to click a link for pending requests. Clicking on the link will display all pending students name, project, and group they want to sign up for. The instructor will be able to approve/deny access and if they need to deny access their will be an optional comments section to add any concerns/messages to relay back to the student
